

Antique Stool Cabinet Small Side Table, English Oak, Carved Animals, Curiosity

DESCRIPTION

Stock # LFA1123 This is an unusual low oak stool or cabinet with twin folio slides, c.1800. This piece is full of charm from the rich honey hues of the English oak through to the splayed feet and artisan construction. However the outstanding feature is surely the four animal carvings of the finials terminating each leg:- intricately carved in crouching poses each one is delightful and charming. Solidly constructed the cabinet has twin folio slides with leather handles and would serve well as a child's stool, side table or foot stool. Small in size but large in appeal with solid joints and construction. Delivered waxed & polished ready for the home.
