

Antique Engine Bearing, English, Cast Iron, Bronze, Desk, Paperweight, Ornament

DESCRIPTION

Our Stock # 18.6184

This is an antique engine bearing with waxed finish. An English, cast iron and bronze desktop paperweight or ornament, and dating to the late 19th century, circa 1900.

- Finely aged form and a fascinating desk ornament
- Displaying a desirable aged patina
- Waxed finish with natural tones and colour
- The bearing cap features the part number 2819
- Engine turned bronze bearing with numbered parts 63 and 64 - on the reverse
- The bearing mount further marked 2815

This is an interesting antique engine bearing and would grace the desk of anyone with an engineering mind. Delivered polished and ready for display.
