

Very Large Antique Library Table, Mahogany, Victorian, Boardroom c.1870

DESCRIPTION

Our Stock # 13.0715

This is a very large antique library table in mahogany with leather top. A Victorian boardroom table dating to the mid 19th century, circa 1870.

Rare to find in such large proportions, this table stands upon six stout baluster turned legs, riding upon the original grand ceramic castors in brass cups.

Four frieze drawers either side are dressed with turned pulls and offer plenty of storage space within.

The twin tooled and gold leafed leather top is beautifully patinated with all the hallmarks of a busy life yet still in good serviceable order adding charm and character to the piece.

Robust with solid joints and construction the table is offered in original condition but could be refinished for an additional cost if desired.
